

Fast Facts

3
full-service
stations.

Welcome aboard.

Brightline West will connect Las Vegas and Southern California with the first true high-speed passenger rail system in the nation. This 218-mile, all-electric high-speed rail service will feature three full-service stations: the Las Vegas station and the Victor Valley and Southern California stations in California.

~2 hrs

travel time from
Las Vegas to Southern
California.

2x

faster than the normal
drive time.

200 mph

top speeds.

American Made

10,000+ union jobs during construction and
800 permanent operations and
maintenance jobs.

Faster

Significantly reduced travel time versus car
and air travel.

Greener

Reduction in 325,000+ metric tons of CO₂
each year.

LAS VEGAS STATION

SOUTHERN CALIFORNIA STATION

VICTOR VALLEY STATION

DID YOU KNOW?

Our Southern California station will be located directly adjacent to the existing Metrolink Rancho Cucamonga station on the San Bernardino Line, allowing for a seamless link to Metrolink's regional service and ensuring car-free, care-free connectivity to downtown Los Angeles and beyond
